CARDIOVASCULAR
DISEASE
FACTS

Heart disease remains the leading cause of death in U.S., according to a new report from the American Heart Association; yet fewer than half of survey respondents knew that.

49%

In the US, 48.6% of people have some type of cardiovascular disease (CVD), including coronary heart disease, heart failure, stroke and, most notably, high blood pressure

On average, someone dies of a stroke every
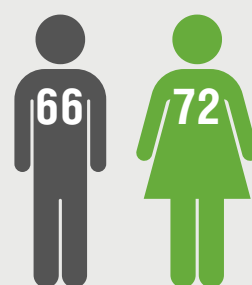

3mins
14 seconds

1 OUT OF 8.5
People die of a heart attack each year

DID YOU KNOW...

66   72

The average age at first heart attack is **65.6** years for males and **72.0** years for females

2,252
Deaths occur from total cardiovascular disease (CVD) each day
